

CHAIN & CABLE LUBE

SPRAY LUBRICANTS

Digilube Systems, Inc. offers a line of spray lubricants that are best used for pin-point lubrication. Our line of chain and cable lubricants include our custom blends of LP801, LP751 & LP750HF.

CUSTOM BLENDS INCLUDE:

① LP801

CONTAINS: Graphite, Molybdenum Disulfide, Hydrotreated Distillate, Propane & Isobutene.

② LP751

CONTAINS: Molybdenum Disulfide, Hydrotreated Distillate, Propane & Isobutene.

③ LP750HF

CONTAINS: Molybdenum Disulfide, Hydrotreated Distillate, Propane & Isobutene.

BENEFITS

- Stop squeaks
- Loosens rusty parts
- Anti-sling formula quiets noise and reduces wear
- Superior lubricant formulated for chains
- Dries after entering chain links or wire cable strands
- Prevents oxidation and extends component life
- Contains anti-wear additives, rust inhibitors, moly and graphite for premium performance
- Reduces friction
- Frees sticky mechanisms
- Reduces maintenance costs
- Prevents rust and corrosion
- Longer machinery life

USES

- Slides
- Pivot points
- Hinges
- Locks
- Rusty Bolts
- Various types of chains & cables
