I-BEAM RAIL & ENCLOSED CHANNEL BRUSH CLEANERS

During the past several years the requirements for conveyor cleaning tools and methods have been growing at a very fast pace. At Digilube Systems, we have recognized this fact and have been developing tools to meet this demand. Custom Conveyor brushes can be made to meet your specifications.

I-BEAM RAIL BRUSH CLEANERS

I-Beam Brush assemblies are your best choice for continuous cleaning of Beam type conveyor rails. Installation is quick and easy.

**PROVIDES:**
- Continuous Cleaning of all Internal Surfaces
- Ease of Installation
- Non-Sparking Brushes

**ELIMINATES:**
- Particulate Build-Up
- Particulate Fall Out
- Rework of Finished Parts
- Wheel & Chain Wear
- Costly Down Time

ENCLOSED CHANNEL BRUSH CLEANER

Enclosed Track Brush assemblies are your best choice for continuous cleaning of Enclosed Track type conveyors.
