

# SPRAY NOZZLE

## ENHANCING POULTRY PLANT EFFICIENCY WITH PRECISE, FOOD-SAFE LUBRICATION

Digilube's Spray Nozzle is an optional add-on designed to lubricate logging chains in poultry plants. It contains variable spray patterns with minimal over spray,

As a leader in lubrication solutions for industrial and food processing applications, Digilube is currently working with the meat processing industry to develop a food-safe lubrication system.

This system ensures precise application to chain links, optimizing conveyor performance and reliability.

### FEATURES:

- » 1/8" NPT
- » Voltage: 24VDC
- » Power Consumption: 9.3W
- » Maximum Rated Pressure: 250 psi
